

DESIGNING ARCHITECTURE

ADA ARCHITECTURE OFFICE

The office has been focused in providing architecture and urban planning services around the world.

During the past 20 years, ADA has been developing several projects in specialized areas within the universe of architecture, such as media and communication, tourism, health, commercial enterprises, single family housing, collective housing at controlled costs, services and industrial buildings.

Therefore, ADA has acquired expertise in disciplines such as home automation, passive house systems and energy efficiency.

It has also developed projects in furniture design and urban equipment.

ADA Africa, installed in Maputo city, Mozambique, and Ritzarto Architecture in Beijing city, China, are respectively an affiliate in Africa and a partner in Asia. More recently, ADA opened a new branch office in Doha, Qatar.

In a sustained way, the office will continue its internationalization process to other parts of the globe, with a special focus on the Arabian Peninsula.
